Our mission is to harness the versatile benefits of essential oils,
including relaxation, mood enhancement, and potential skin improvements,
to enhance overall well-being and beauty.

MESACOSA CO.,LTD.

In 2005, Dr. Bok founded MESACOSA CO., LTD., specializing in aromatherapy.

The company operates both an educational institution for training professionals in aromatherapy and a facility for manufacturing aromatherapy-related skin and body care products.

SALVEO,

a skincare cosmetics brand under the umbrella of MESACOSA, is dedicated to enhancing skin health and beauty by harnessing the physiological and psychological healing effects of aromatherapy through the utilization of essential oils. This approach prioritizes the inherent functionalities of medicinal plants, including their capacity for antioxidation and anti-aging effects, rather than relying on synthetic functional substances.

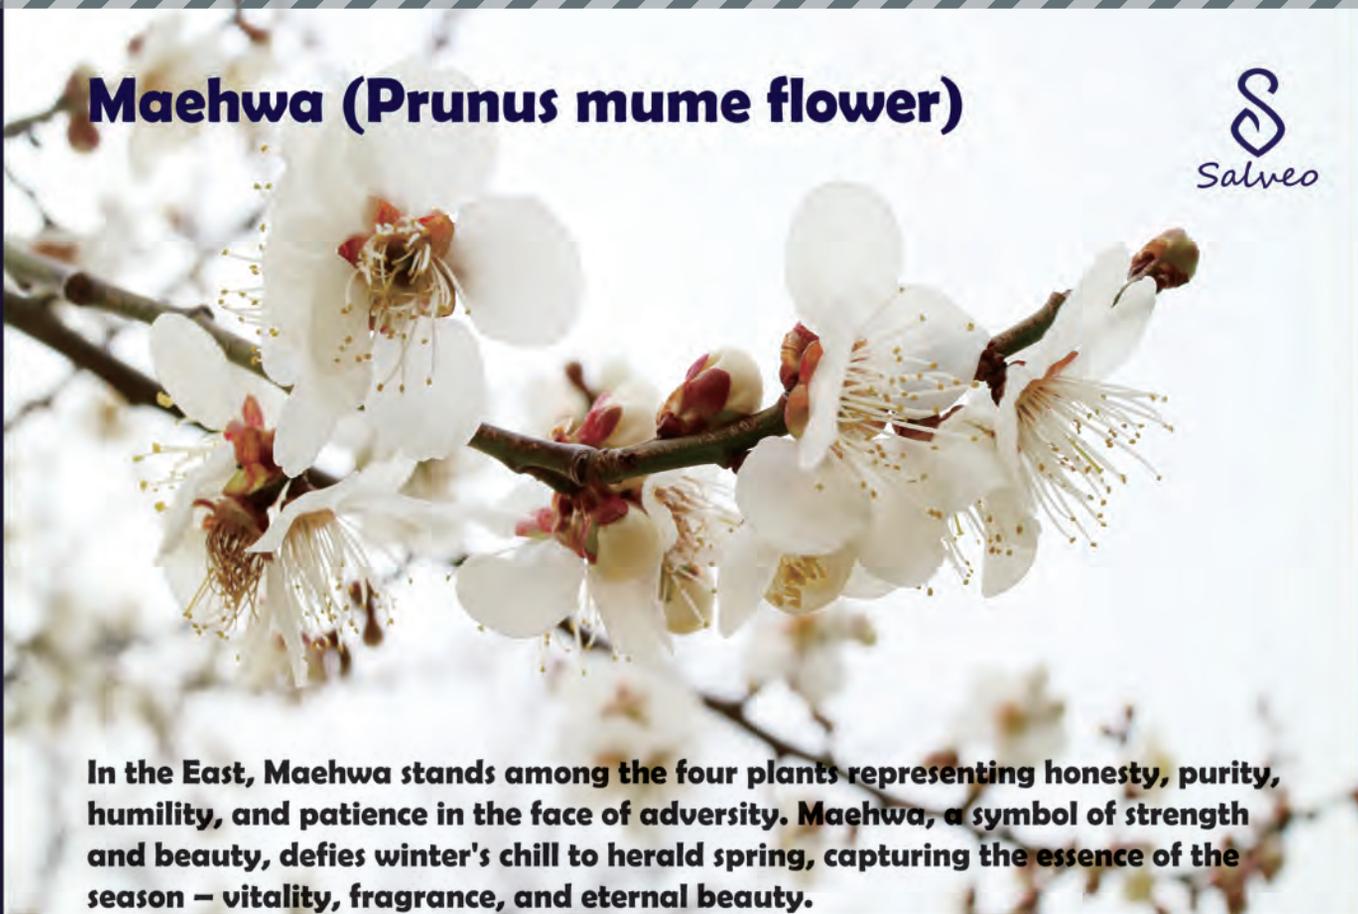

Dr. Bok, a highly regarded expert in aromatherapy, holds a Ph.D. in Oriental Medicine. She has been devoted to aromatherapy education and product research since the late 1990s when it gained popularity in Korea. She earned a Bachelor's degree in Psychology from the University of Plymouth, focusing on the effects of aromatherapy on cognition and executive function. Later, she obtained a Master's degree in Cosmetics, researching therapeutic uses of essential oils for stress-related atopic dermatitis. Dr. Bok completed her academic journey with a Ph.D. in Oriental Medicine, studying the antioxidant and anti-aging properties of Prunus mume flower bud extracts. Her extensive expertise reflects her commitment to advancing aromatherapy and holistic well-being.
