CUSTOMER REVIEW

★★★★★ All day work gloves

I work construction and wanted a glove I could wear all day doing most jobs. This glove fits tight, gives ample protection from most things while minimally restricting dexterity. It works well with touch screens which is important when you're wearing them all day. When doing heavy construction like demolition, they last about a week but given their fit and comfort, this is probably the best you can do.

★★★★★ Works on screens

It really does work on phone screen. Easily!! use them for work com in really during Covid pandemic. No need to constantly pull off your gloves.

★★★★★ BEST RUBBER TOUCH SCREEN GLOVES / DELIVERY DRIVERS

As a delivery driver I've tried all of gloves all sorts by far this one are the best ones I have ever had. As far as rubber gloves go and using them on a phone or bay type of phone. Plus they come with a chemical free of a chemical that can cause harm to you that most gloves like these come with. so it's a win win.

★★★★★ Good for touch screens

I'm a cashier and use these gloves instead of single-use options. Best of all the ones I've tried when using the touch screens on registers.

CUSTOMER REVIEW

★★★★★ Greatly gloves

Great gloves! I still can feel everything through them and I don't have to take them off.

★★★★★ Great gloves for the price.

Great fit. Perfect for what I needed in the garden and the tool shed.

★★★★★ Work great sturdy worth the price

Exactly as stated! We are a package truck loader in a cooler climate! These have worked great!

★★★★★ There are strong

I like that there are strong and last long!

★★★★★ Great Gloves

These are the perfect working gloves , very durable for the work I do outdoors, I use them everyday, Thank you for making a great pair of working gloves

CUSTOMER REVIEW

★★★★★ Gloves for sanding

I have been using these gloves for a couple of weeks and they are good for what I use them for. I do a lot of sanding and as long as you do not sand tiny items where the gloves are close to the sander they are great gloves. I think they work better if you need them for cutting or chopping. Overall, they work well.

★★★★★ wonderful feeling work gloves

Great protection and don't interfere with dexterity (I ordered the cut resistant - single pair). One reviewer described the fit as being like a "second skin" and I agree. The fingers aren't so overly long that you can't pick up nuts and bolts and other small hardware. The perfect work gloves for me.

★★★★★ great garden gloves

fit good fast shipping time. I got these for weeding and working in the lard GREAT GREAT VERY HAPPY ALL AROUND

★★★★★ Thumbs up

Was a great gift for my girlfriend I hate when she gets hurt so this was a great choice

★★★★★ Definitely cut resistant

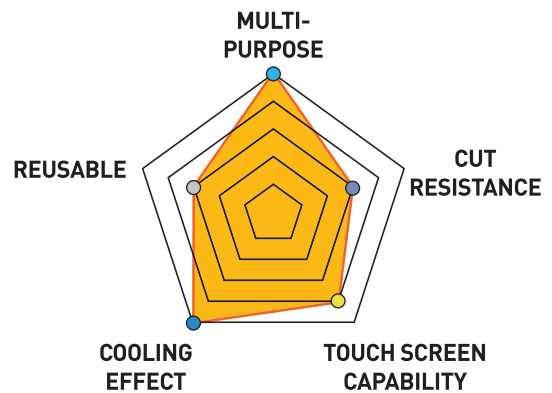

Fit was good, cut resistance was amazing. I would buy again, definitely

CUSTOMER REVIEW

★★★★★ Works as Advertised

It has been advised to wear gloves when out and working in the public. Usually when wearing gloves, I can't keep them on for a few hours, because I feel as though I am over-heating. With these gloves, I can keep them on all day and they are protecting my hands from handling mail and boxes all day. Another great product!!!

★★★★★ Light, breathable, and works with touchscreens!

Love the dexterity of the gloves for my job working in a warehouse. The material is light enough to use your smartphone, and durable to withstand my day to day wear and tear. Very pleased with these. Great for warmer seasons. Not ideal for winter weather

★★★★★ Better than Maxiflex gloves

Longer lasting than Maxiflex plus the have touchscreen ability.

★★★★★ Best Gloves Ever

I love these gloves. I work in a warehouse and they keep me protected all day and it feels as if I don't have anything on my hand.

★★★★★ Good gloves

Good for any job you have to do especially if you have hands that heat up quickly

CUSTOMER REVIEW

★★★★★ Soft Microfiber Inside!

I am amazed every time I put these gloves on. The inside feels like a soft microfiber, Terry cloth, velvet. The outside grip is better than nitrile. The crinkle really helps, from handling cardboard to counting money. Great gloves.

★★★★★ Nice flexible gloves, help keep hands warm on cooler days.

Loved the fit, the price is fair, help keep hands warm.

★★★★★ Works great for Chemo patients

If your going through Chemo and have that bad cold sensitivity & can't even touch anything in your freezer- a must buy - I can take anything out of your freezer and even open packaging - without it hurting me - A MUST BUY FOR CHEMO PATIENTS.

★★★★★ They really work! Great grip, low profile and warm!

I work doing mmm mmm stocking both refrigerated and frozen food for a local grocer. These gloves are amazing. They keep my fingers warm without cutting off circulation, are thin enough to not make me glitzy and the grip is better than using my bare hands. What a finger saver!!

★★★★★ These are incredible!

Forget traditional winter gloves entirely I say. They seem completely unnecessary now that I have these gloves. And they are excellent for working in the boot. Great grip, enhancing normal bare hand grip with minimal impact to dexterity.
